

FULL STACK DEVELOPMENT

# FULL-STACK DEVELOPMENT

## Welcome to the program!

Congratulations!

We are excited to inform you that you have been accepted to the **Spring 2020 cohort of Israel Tech Challenge Full-Stack Development with Data Specialization Program**.

After reviewing your personal and professional background, online test results, and interview, we are delighted to have you join our **Spring 2020 Program Cohort**, in which on-campus studies will begin on **May 3rd, 2020** and end on **October 1st, 2020**.

The ITC staff congratulates you on this accomplishment and welcomes you to our community of global tech talent. This intensive program brings talented participants from around the world to Israel and helps them launch a new tech and coding career. The program includes hands-on training in full-stack development with data orientation, career-building soft skills and networking, and industry experience.

Please note that there are a few additional steps which you are required to complete in order to officially be accepted to the program and to ensure a smooth transition:

**1) Terms and Agreement** - Participation in the program is subject to the Terms and Agreement of the program. Please carefully review the enclosed Terms and Agreement and send back to ITC signed via the following email: [info@itc.tech](mailto:info@itc.tech)

## 2) Pay the Down-payment:

Tuition includes the following: registration fee, online course fee, and training program fee. The tuition fee does not cover food, flights, transportation or housing.

**A) Pay once you earn - Income Sharing Agreement:** We hope we were able to answer all your questions regarding the unique and great opportunity to start your studies without worrying about finances. The Income Sharing Agreement (ISA) set-up and registration fee is 2,000 ILS.

Even if you know that this is your preferred payment plan, please proceed to **pay the 3,500 ILS** down-payment to secure your spot in the class. We recommend that you wait until after you have the confirmation that you passed the technical review of the online course to schedule an appointment with the ISA financial advisor to go through and accept the ISA terms. Remember it still takes 1-3 weeks to complete the ISA process after speaking with the financial advisor. Once this ISA is finalized, we will refund the 1,500 ILS difference. If you change your mind about ISA, you will have to pay the tuition in full prior to starting on-campus studies.

**OR**

**B) Pay Tuition before you start:** The total upfront tuition fee is 25,900 ILS. If you choose this payment plan, please note the following payment schedule:

- Down payment (Non-refundable online-course fee) 3,500 ILS [within **7 days of receiving this letter**]
- First payment 11,200 ILS [Due by **April 5th, 2020**]
- Second payment 11,200 ILS [Due by **April 19th, 2020**]

**Important:** If you change your mind and prefer to switch to ISA after the technical review of the course assignment, you will be refunded the 1,500 ILS difference between the down-payment and ISA set up fees.

**Cancellation terms:** The conditions are specified in the enclosed Terms and Agreement.

**Payment methods:** Please submit payment via Bank Transfer, Paypal, or Credit Card on our payments page at [www.itc.tech/payments](http://www.itc.tech/payments)

### 3) Online Study and your first assignment for technical review:

After you complete the payment and submit the signed terms, you will receive the instructions to start the first assignment for technical review in the program (nicknamed Pre-course). Applicants must successfully complete the program's first assignment as detailed in the Terms & Agreement. The materials covered in the short online course are to ensure that you will get the most out of the Program and will not be taught them again in class. You are required to complete and submit it by the dates specified in the Terms & Agreement. Please make sure to allocate sufficient time in order to meet the requirements mentioned.

### 4) Secure grants

**MASA Israel Journey grants:** Non-Israeli participants of the program may be [eligible to apply](#) for a MASA grant which can go towards your tuition or, if combined with ISA, towards accommodation and living expenses. We recommend that you start the application process as soon as possible since it may take MASA some time to process the application. Please let us know if you are interested in this, so we could send you more information.

**Government retraining voucher program for residents:** Israeli participants who made Aliyah in the past 7 years may be eligible for a professional training grant from the Ministry of Aliyah and Immigration. Israeli residents who are not Olim may check their eligibility to see if they can apply for the retraining **הסבה מקצועית** voucher program through the Ministry of Work and Welfare or for the Army Discharge Pikadon. To check your eligibility please contact the [Aliyah service office](#) in your district. The voucher program is at the sole discretion of the Israeli government offices, and ITC cannot apply on your behalf or affect their decision.
